

PRESTO Translation and Language Center has been using Velior's services since 2006. We have requested services such as translation and proofreading from Velior.

Velior has always been a reliable partner for our Russian language needs. They meet all our requirements such as quick response to e-mail, fast translation turn-around, high quality.

Throughout our cooperation, Velior helped us in about 400 projects. Two of them were large translations over 100,000 words. Even with these large volumes and tight deadlines, Velior exhibited good qualities such as consistency and responsibility.

In case of any follow-up, Velior was always ready to provide quick help. Our customers were satisfied with translations delivered by Velior.

As our company grows, we are intending to continue using Velior as a Russian language outsourcing vendor.
